# CINEMA VISTA T1.5 PRIME LENSES

Tokina Cinema has introduced the new Vista series T1.5 Prime Lenses. These revolutionary new lenses feature a huge 46.7mm image circle making these lenses compatible with nearly every motion picture camera sensor on the market including VistaVision format. The new Vista series all are the exact same size and gear position for easy set up and workflow. Ultra sharp with nearly zero image breathing during focus pulls. Tokina Cinema Vista is truly the modern ultra crisp works-on-everything solution for your cinema and motion imaging capture needs.

## FEATURES:

- Fast T1.5 T stop, good for low light filming
- Nearly no breathing during focus pulls
- T1.5 through to T22 Iris range
- Low chromatic aberrations
- No image shift during focus pull
- Image circle of 46.7mm covers FF35, VistaVision and Red Dragon 8K W
- Consistent 114mm front outer diameter, good for efficient matte box use
- Lenses also feature a 112mm screw-in filter size (Excluding Vista 18mm)
- Robust construction materials, good for long term use and ownership
